**GARY SCHUSTER WINS ERNST & YOUNG ENTREPRENEUR OF THE YEAR® 2013
Gathers Top Honors for Northeast Ohio in the Distribution and Manufacturing Category**

Wickliffe, OH (July 1, 2013)—OMCO is pleased to announce that Gary Schuster, president and CEO, has been selected as the winner for the Ernst & Young Entrepreneur Of The Year 2013 Northeast Ohio in the distribution and manufacturing category. An independent panel of judges selected the finalists and winners who were honored at a gala event at the Marriott Downtown Cleveland last Thursday night. Winners were announced in nine categories.

“I am very honored to have been selected for this prestigious award,” said Schuster when he accepted the award. “The credit for our accomplishments is shared with all of our employees at OMCO. We are fortunate to have an extremely dedicated group.”

Mr. Schuster joined OMCO in 2006 and brought with him over 30 years of experience in industrial manufacturing. It was a very challenging time at OMCO, and Mr. Schuster immediately formulated the company’s new growth strategy, which included the ability to respond quickly to market opportunities. The result of this strategy was a sales increase of 816% over the three year period from 2009 to 2012. To support this tremendous growth rate, two new facilities were built and the company’s workforce grew by 800 employees.

Regional award winners go on to compete at the national level. Award winners in several national categories, as well as the National Ernst & Young Entrepreneur Of The Year Overall Award winner, will be announced at the annual awards gala in Palm Springs, California, on November 16, 2013. The awards are the culminating event of the Ernst & Young Strategic Growth Forum®, the nation’s most prestigious gathering of high-growth, market-leading companies.

About OMCO Corporation

Founded in 1955, OMCO is the largest custom roll former in the United States. The company develops highly engineered shapes for industries ranging from agriculture and appliances to building products, construction, conveyors, storage systems, transportation and solar. OMCO has four manufacturing facilities in the United States that represent over 600,000 square feet of manufacturing space with more than 40 active roll forming mills, over 50 presses, and dozens of other metalworking operations.
