

INTRODUCING

OMCO XD SCUFF

EXTREME DUTY

OMCO XD Scuff is engineered for fleets requiring Extreme Duty protection for sidewalls and flooring. It protects against damage ordinary scuff cannot, damage commonly caused by tow motors and steel shipping racks.

New 1 Piece Design

Old Way: Welded Sections without leg

Plate steel sections need welding and have snag points. Will rust if left untreated.

- Extreme Durability

- Galvanized one piece scuff

- Counter sunk holes to eliminate snag points.

- No welding required

- Ease of installation by both the OEM and aftermarket

- Top edge offset to protect fasteners

- Available in 10 & 12 gauge

- Innovative scuff design

- Floor lip turn down to increase life of the scuff while providing a snag free surface

Roll Forming Excellence

Height:	Material:
12 5/8"	10 or 12 Gauge
18 5/8"	Hot Dipped Galvanized- CQ G60

Lengths not limited to 53'.

For over 50 years, OMCO has provided highly engineered and innovative roll formed parts to the trailer industry.

We provide roll formed sections up to .375 inches thick, 30 inches wide with any length available.

Secondary and finishing capabilities include piercing, slotting, forming, notching, welding, and painting.
