

Worry-Free Tooling!

The image shows a man in a tan sweater holding a large white invoice. The invoice is titled 'INVOICE' and features the OMCO logo at the top. It lists several tooling services, each with a price of \$0. The services listed are: Tooling markup, Roll tooling design, Tooling development/PPAP charges, Metal consumed in tooling dev./PPAP, Tooling maintenance fee, Replacement of worn tooling, and Rafting plate costs. A bolded 'Total' at the bottom right of the invoice also shows \$0.

Service	Amount
Tooling markup	\$0
Roll tooling design	\$0
Tooling development/PPAP charges	\$0
Metal consumed in tooling dev./PPAP	\$0
Tooling maintenance fee	\$0
Replacement of worn tooling	\$0
Rafting plate costs	\$0
Total	\$0

Your Roll Forming Tooling at OMCO: buy it once... then forget it!

With the OMCO Tooling Partnership:

- 1) Tooling is produced at cost, with **NO MARKUPS**. The cost from our vendor is what you pay.
- 2) We design our own roll tooling. We do not charge for this.
- 3) We do not charge for tooling development or trial runs up to and including no charge for PPAPs
- 4) We do not charge for metal consumed during tooling development, trial runs or PPAPs
- 5) We do not charge a tooling maintenance fee; we maintain and repair tooling at no charge to the customer
- 6) We replace worn tooling with new tooling when it is no longer serviceable. OMCO pays for this, not the customer.
- 7) If we determine a job should be rafted in order to increase throughput and keep piece price low, we do not pass this cost along to customers
